**TACTIX**  
Consulting Group Inc.

Most business managers have looked seriously for methods and processes to improve their overall production, quality and desired outcomes. Lean Six Sigma techniques are proven to bring those desired results to organizations. If your company wants you to learn how to employ lean Six Sigma methods in managing the business needs and future needs then join us for the initial launch of this 'live' webinar. Pam Nintrup, who has taught a variety of Lean and Six Sigma courses for several years, will be the instructor and will welcome our virtual audience from all over the world. We would like to reserve a gateway key for you. This debut of new live webinar offerings from Tactix deserves a new offering price. This first offering price will be only \$1899 per person. You get the live webinar with Pam for 5 full days, plus if you miss a day you get a special gateway pass into the 'recorded' session so you won't miss anything. You will continue with an instructor and student relationship to complete a project assignment in order to earn your Certificate as you demonstrate that you can use the tools and concepts you have been taught for managing a project.
